What does this mean for the clinic? The Saskatchewan Health Authority is advertising for a Nurse Practitioner to come to our community clinic. While we have no time frame for this process, we are planning on having Nicki back with us during the interim. While she won't be here full-time, we will do our very best to assist you with your healthcare needs during this time. We will continue with lab services and our clinics with Dr. Van Der Merwe!

What does this mean for Nicki? We send her off with so much love and gratefulness for all she has done for her patients and rural healthcare. Her passion for Primary Health Care is second to none. While she will be missed more than she knows, we wish her a long, fun-filled retirement with lots of time with family, travel, and the great outdoors!

THANK YOU FOR EVERYTHING, NICKI!

MARCH WINNER OF MARYFIELD PUBLIC LIBRARY

DRAW: Lorna Raisbeck won a \$20 gift certificate for the Maryfield Corner Store. A draw is made about every 6 weeks for gift certificates (that the Library purchases) from local businesses. Be sure to enter a ticket every time you visit the library! The next draw on April 15 is for 'The Farmer's Wife'. The results are posted on the Maryfield Public Library Facebook page.

DID YOU KNOW ... Manitoba Hydro Place in Winnipeg is close to the top of the list for *Green by Design* projects in North America? "It was the first building to achieve Platinum LEED (Leadership in Environmental Energy and Design) and utilizes a 115 metre tall solar chimney that rises up the side of the building to manage air circulation. The chimney is painted black so it absorbs solar radiation that heats the air inside the chimney. The rising air acts as a huge natural fan that provides natural circulation through the building. Moveable shutters on the outer walls control the amount of sunlight streaming in. The energy required to run the building is 70 percent less than that of a commercial building of comparable size." Retrofitting buildings is much less cost than building a new one using conventional energy sources.

Excerpt from Bob McDonald's book The Future is Now. There are no fans, no furnace - a great cost saving in initial expense and in the continuing monthly cost for power that most of us pay. The biggest advantage is that fewer pollutants are released to the environment.

News From Maryfield School

Hello Spring!!!!

March was an incredibly busy month at Maryfield School! There was curling, dancing, skiing, pancake breakfasts, and all sorts of other fun activities that kept our students extremely busy over the past month!

In February there was supposed to be a reading contest for our students taking place through the Sora reading app. Due to the technical network issues that occurred, the contest had to be postponed and we will be redoing that contest in April! Students are encouraged to read as much as they can through the Sora app. Top students will be entered into a draw to win prizes such as a tablet, games, and sports equipment. Full contest details will be forwarded to all families!

Our graduating students will be having a steak night fundraiser at the Arlington on April 23rd. This year's graduating class will consist of Brett Naylen, Callie Naylen, Hunter Olson, Landon Retzlaff, and Logan Stadnyk. They will be fundraising to help cover some of the costs associated with their graduation event on June 17.

We are also in the early stages of planning for our summer kickoff party for the end of June! If you have ideas for how we could make this event more exciting please let me know! So far our plan is to have an evening of family friendly outdoor games, some food, and a movie on the projector in the gym.

We would like to say a HUGE THANK YOU to ERP Pro Hardware in Redvers for raffling off an item on our behalf. They raised \$900 for our school which will be a great start in our plan to replace the chairs in our gymnasium!

Upcoming Dates:

April 4-5 – Student Led Conferences

April 7-14 – No School

April 23 – Grad Steak Night

April 28 – Hot Lunch

May 1 – SCC Meeting @ 7PM in library

As always, keep an eye on the school Facebook and Instagram pages for updates on everything that is happening at the school!

MARYFIELD YOUTH BONSPIEL

The Annual Youth Spiel was held on Sunday, March 5 with 44 kids from grades 2-8 participating. Besides Maryfield participants, there were curlers from Miniota, Moosomin, Miniota and Elkhorn. There were both full and half sheet events. On-ice coaches were on hand all day to guide the young curlers. Partway through the day, a pick-a-prize was held and all those participating received a prize. We appreciate all those who helped make the day such a success.

Maryfield District Lions Annual Minispiel

Maryfield District Lions and Maryfield School hosted their annual minispiel on Tuesday, March 7, 2023. Kola and several home-schooled children joined Maryfield Grade 1 to 5 students to learn a little about curling and a lot about sportsmanship. Great fun was had by all in attendance. It was wonderful to see so many

parents, grandparents, friends and neighbors out to watch the youngsters take to the curling ice. Between games, participants were able to put on their skates. The rink kitchen was busy with lots of delicious options including the annual favorites—popcorn chicken, taco salads, French fries, jello, rice krispie & puffed wheat cake. Thanks to everyone who helped make the day a success. Thanks to the Lions and Maryfield & Kola staff members who worked the curling ice, supervised the skating ice as well as the upstairs and waiting room. A huge thank you to the Maryfield SCC who convened the kitchen and made sure there was lots of delicious goodies for everyone. The top 10 teams got trophies, replated by the Maryfield Lions and all participants went home with a bag of popcorn, compliments of the Maryfield School.

SASK LOTTERIES COMMUNITY GRANT

Each year funding is available through Saskatchewan Lotteries. The funding amount is based on a per capita amount, for the populations of the Village of Maryfield, the Village of Fairlight, the RM of Maryfield and the RM of Walpole. The program is designed to provide funding for sport, culture and recreation programs and is administered through the Maryfield Recreation Board.

The Recreation Board then disperses the money to local groups and clubs (some via kitchen convening). A follow-up report must be prepared for the Saskatchewan Lotteries Community Grant. The follow-up report includes receipts for eligible expenditures.

Organizations that wish to receive grant money can contact Pauline Lincoln, Maryfield Rec. Board treasurer, for information on allowable expenses. Projects and related expenses must have occurred between April 1, 2022 and March 31, 2023.

Call/text Pauline at 306-646-7691 or email pauline-lincoln8@gmail.com.

Maryfield Recreation Board

The 2022-23 Winter Season is winding to a close. The last of our curling events was the Winter Festival. The plant has been shut down and the ice is gone. With the cool temperatures, the skating ice continues to be in great shape. We are all hoping for warmer temperatures so if the weatherman cooperates the skating ice will soon deteriorate as well.

Maryfield Recreation Board would like to thank everyone who made our winter season go smoothly. Special thanks to the organizations who took on convening of the kitchen for our various events: Maryfield School SCC, Maryfield District Lions, Maryfield Playschool, Maryfield Harmony Centre, and Maryfield Flower Power Sub-Committee.

Thanks to Bryan for his work with the ice and to Marlee for keeping the rink clean throughout the winter months.

EMPLOYMENT OPPORTUNITY:

The RM is advertising for a Summer Student or Seasonal position – work to commence May 1st and run until September - unless otherwise negotiated with the successful candidate. Please send your resume in to the municipal office on or before Wednesday, April 12th at Noon. More details are on the RM of Maryfield website: <https://www.rmofmaryfield.com>

DEVELOPMENT PERMITS & BUILDING PERMITS:

The Construction Codes Act defines a Farm Building as a building that:

- (a) does not contain a residential occupancy;
- (b) is located on land used for an agricultural operation as defined in *The Agricultural Operations Act*; and
- (c) is used for the following purposes:
 - (i) the housing of livestock
 - (ii) the production, storage or processing of primary agricultural and horticultural crops or feed;
 - (iii) the housing, storage or maintenance of equipment or machinery associated with an agricultural operation;
 - (iv) any other prescribed purpose

For example, a person wanting to build a shed/shop in his yard as an accessory to his farm operations, as this building is on Agricultural land, a building permit is not required. A development permit would still be required to be submitted to the development officer and/or council for review.

Building standards do apply to any residential occupancy on Agricultural land.

If a person was building a new dwelling, a basement development, a deck, or a garage to serve as an accessory to the dwelling, a building permit is required for these projects.
